

MyLivingCity

CO-CREATING A SUSTAINABLE CITY

Project: MyLivingCity - Community Discussion Platform (CDP) Project

Sponsor: Nic LeBlanc

Team Members: Phuong (Jennifer) Tang-Tran, Joshua Sivertson, Changsin Park

MyLivingCity provides citizens a platform to participate in sustainable development within their community. MyLivingCity is sponsoring the Community Discussion Platform (CDP) project to fulfill the objective of fully involving the citizens in the planning process. The discussion platform will transform cities into sustainable cities and empower every citizen to engage in a conversation of change in their community.

Meet the Team

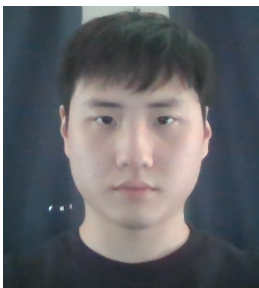

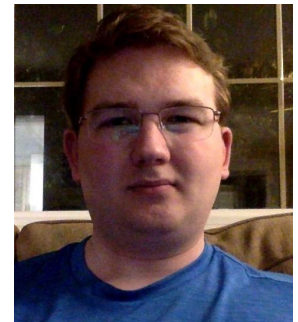

Phuong (Jennifer) Tang-Tran

Phuong (Jennifer) Tang-Tran is known for being an ambitious and detail-oriented worker who approaches problem solving with tenacity. As a result of Jennifer's strong leadership and communication skills, she has been assigned the Project Manager and Technical Writer role. She enjoys SQL querying, developing software, and writing documentation. Furthermore, Jennifer has participated in the development of a booking system in her co-op as a Junior Software Developer at TeslaTours. She is looking to gain experience during the Capstone program so she can become a Database Administrator or Software Engineer.

Joshua Sivertson

Joshua Sivertson is an aspiring Software Engineer with a keen interest in backend programming languages, particularly C++ and Java. He has been deemed the Technical Lead in this project due to his extensive programming knowledge. Joshua enjoys finding creative solutions to the problems presented to him as well as discovering new ways to improve upon his work. He is looking forward to gaining valuable experience working in the Capstone program.

Changsin Park

Changsin Park is a junior web developer with various skills including problem solving and troubleshooting. Changsin's determination to ensure the project's quality is an asset for his role of Software Developer. He enjoys programming because of the many opportunities it provides. Moreover, Changsin is looking forward to pursuing his passion of becoming a full-stack web developer.

The team would like to express their gratitude to their sponsor at MyLivingCity, Nic LeBlanc, for providing us with this amazing opportunity. We would also like to give a huge thank you to Saryta Schaerer, Ben Leather, Katie Tanigawa, and the Camosun College ICS faculty for their continuous support and guidance in this project. The team is excited to apply their technical and development skills to ensure the success of the project.
